PROVINCE GIVES \$20,000 TO AID MINE SUFFERERS

Money Is to Be Employed for the Relief of the Widows and Orphans.

PERMANENT COMMISSION ALSO IS ESTABLISHED

It May Take Several Years Properly to Wind Up Business for Children.

At a council meeting this morning the provincial government made a grant of \$20,000 for the relief of the widows and orphans of the miners killed at Hillcrest, and also appointed a permanent commission to be called The Hillcrest Relief Commission, to deal with this money and all other subscriptions, as it may take several years to properly wind up the business and care for the children.

The commission consists of the district judge of Macleod district, within which the mine is situated, who is an appointee of the federal government; the clerk of the district court, who is an appointee of the provincial government; and the manager of the Union Bank of Canada at Hillcrest, who might be called a representative of financial interests. It is also provided that the accounts shall be audited by the provincial auditor. The personnel of the commission is such as to appeal to the public and ensure the use of subscriptions so as to do the most good. All subscriptions should be made payable to treasurer, Hillcrest Relief Commission, and sent to Union Bank, Hillcrest.

The commission will advise with the officials of the miners' union and the mine owners' association.

SOLDIERS WHO BURNED CITY AND ATTACKED WOMEN PUT TO DEATH

Tien Tsin, China, July 3.—One hundred and fifty of the soldiers of the first division, who recently looted the town of Kailan, 125 miles northwest of Peking, and afterwards were induced to desert by promises of being given their freedom, have been put to death. Last month the garrison at Kailan, composed of 8,000 soldiers mutilated and looted, and then burned, the city. All persons who resisted them were killed. The women among the inhabitants were attacked by the mutineers and many of them carried off.

JUDGE COMMENTS ON MANITOBA MACHINE'S ROTTEN ELECTRIC ACT

Winipeg, July 3.—The final figures for the count of revision in Winnipeg show that the liberals succeeded in having 122 names, registered fortnight ago, struck off the list. The conservative list had no strike-offs. Out of 175 names dealt with in Center Winnipeg, 72 names were eliminated.

The three stations are to be at Calgary, Edmonton and Athabasca. The two British geologists are building their primarily for their own interests, but it is announced that they will also be used for commercial purposes.

Women Want the Vote.
Stockholm, July 3.—The Swedish parliament received a monster petition yesterday signed by 650,000 women in favor of women's enfranchisement. A bill having that object is now in the diet and has the support of the entire liberal party, but it is expected that the first chamber will reject it.

Sir Benjamin Stone Dead.
London, July 3.—Sir Benjamin Stone, president of the National Photographic Record association, died yesterday. He was born at Birmingham in 1838. He was an extensive traveler and was a commissioner for the St. Louis exposition. He was appointed by the king official photographer for the coronation in 1911.

SETTLERS GATHER FOR CELEBRATION OF DOMINION DAY

Hon. C. W. Cross is Chief Speaker at Shining Bank Lake Picnic—Attorney-General Taken With Country—District Gets Half Thousand Fine Progressive New Citizens in Year.

The manner in which the pioneer settlers of Alberta and the thousands of new citizens who have recently come into some of the districts join together to celebrate the dominion's national holiday was well illustrated at the meeting addressed on July 1 by Hon. C. W. Cross, attorney-general, at Shining Bank lake, one of the comparatively newer settlements, located about 40 miles northeast of Edmonton and about 25 miles north of Peace, on the Grand Trunk Pacific main line.

The national holiday picnic at that point was very well attended, farmers coming from miles around to hear the attorney-general and other speakers and see and take part in some of the events.

During the past year or so about 400 settlers have come to that district, most of them Americans. Shining Bank lake lies in the midst of an excellent agricultural district, which is fast assuming the aspects of a modernized community, because of the fine, progressive type of the people.

Mr. Cross was invited to attend the picnic upon the railway question, on matters which were vital local concerns and on Dominion day itself. He was warmly received, listened with intense interest and when he finished a wave of thanks was tendered him for attending the picnic and making an address.

Mr. Taylor, one of the oldest settlers in the district, was chairman of the meeting at which Mr. Cross and others, including Mr. Jupp, another pioneer settler, spoke.

Mr. Cross, seen this morning, seemed to be very favorably impressed with the Shining Bank district. On January 31, last, he spent the day in Edmonton, also visiting Toller, a new Canadian Northern town, about four miles south of Edmonton. That section of the province, all of which is included in Edmonton constituency, whose member is Mr. Cross, is being developed very rapidly, and will soon have trains running through the C. N. R. as well as the G. T. P. from coast to coast.

THREE WIRELESS STATIONS TO BE BUILT IN ALBERTA

Athabasca, Edmonton and Calgary Will Be Locations—Contract Now Let.

PRIMARILY FOR OIL USE, BUT COMMERCIAL

Cunningham-Craig and Mowbray—Berkeley, Famous Geologists Interested.

Alberta is to have three wireless telegraph stations. The contract is already let for their construction and the principal owners are said to be Cunningham-Craig and Mowbray-Berkeley, the famous British oil geologists. This, therefore, is one of the tangible results of the present Alberta oil developments.

The three stations are to be at Calgary, Edmonton and Athabasca. The two British geologists are building their primarily for their own interests, but it is announced that they will also be used for commercial purposes.

SUFFRAGETTES BURN MANSION; FINE TREASURES DESTROYED

Delfist, Ireland, July 3.—Suffragettes today burned Ballynacree, a fine mansion, near Hollywood. The house contained many priceless art treasures, all of which have been destroyed. Ballynacree, the residence of the late Sir Daniel Dillon, mayor, and lord mayor of Dublin for many years, and a member of parliament for some time.

The militants left the usual evidence of their presence but they themselves escaped.

TWO WOMEN AND MAN ARE FOUND SHOT TO DEATH

Atlanta, Ga., July 3.—The bodies of S. F. Bennett, and two unidentified women were found in a swamp at East Point, a suburb of Atlanta, early today. Wounds indicated that all three had been shot. The bodies of the women were covered with irish who had that of Bennett lay in the open a few yards away. The coroner of Fulton county has been summoned to investigate.

MISS RAMONA BORDEN, the human note of discord between Gail Borden, the New York millionaire, and his wife, who has sued him in the California courts for an absolute divorce.

ARRANGEMENTS COMPLETED FOR JULY 4 PICNIC

Expected Edmonton Will Break Another Record at Lake Wabamun Tomorrow
BASEBALL GAME TO BE DAY'S PRINCIPAL EVENT
Appropriate Speeches of Ten-Minutes Each by Orators of Three Great Nations.

Everything is now ready for the biggest Fourth of July picnic ever held by any American-Canadian, and it will take place at Lake Wabamun tomorrow, when a special train pulling out from the first street depot out from the G.T.P. at 8.45 in the morning. It has been arranged by the Canadian-American club of Edmonton.

The piece de resistance of the day holiday will be the big ball game between the married and single men, or, as some of the benedictine have been harsh enough to put it, between brains and youth. The only part which has not as yet been arranged is the selection of the umpire.

If the weather remains as it has been for the last few days, which is promised, a monster crowd will spend the day at the lake and turn the hot, sultry weather of the office and pavement into refreshment and joy.

Canadian, American and British will combine together for this celebration of American independence on Canadian soil. L. W. Brockington will speak on "A Message from Overseas," John Blinn, the provincial librarian, on "Welcome to Canada," and George M. Halstead, district commissioner, on "The Day we Celebrate."

Besides the speeches and the ball game there will be races and other sports which characterize picnics, with good prizes. These speeches and games have been prepared, which will be distributed on the train and at the lake. The return special train will leave Wabamun at 7 p.m., arriving in the city in plenty of time for the picnickers to reach home at a good hour, or even do a little of a Saturday shopping. A very low rate has been secured with half fare for small children.

PASSENGER VESSEL FINALLY CONQUERS THE SLAVE RIVER

(Special to the Capital)
Athabasca, July 3.—The Slave river has finally been conquered by a passenger boat. The Snowbird, owned by T. E. Patterson and piloted by Captain Fitzgerald, has made the trip in five hours and came down in one hour and 10 minutes, carrying passengers both ways, and without any assistance. The Snowbird, it is stated, will continue on the river between here and Sawbridge while the water is high at least. She is 42 feet long with an eight-foot beam, and a 10-horse power engine. She was built here last summer, especially for low and swift water.

MIRACULOUSLY SAVED FROM SERIOUS INJURY BY FALL FROM TRAIN

Marienville, July 2.—When the Canadian Northern train from Athabasca to Edmonton had passed through this town early last evening and had got up considerable speed, a man, who was said to have been intoxicated and who was known as "Irish," fell off and was cut on the head. Although the man was going fast he was not badly hurt, and after feeling stunned for a few minutes he started to run and the train was then backing up for him. The man was standing on the steps of one of the cars before he fell, and passengers remarked that it was miraculous that he escaped with such light injuries.

SWOONS AT SENTENCE

Sydney, N.S., July 3.—For the second time within four months the dread sentence of death was passed in the court house in Sydney yesterday when Gustav Brauer was found guilty and sentenced to die September 16 for the murder of E. J. Wain, of himself (Charles Lancy). He admitted that there were cases which were never reported.

Newspaper Man Passes.
Vanouver, B.C., July 3.—A newspaper man, formerly a well known newspaper man of Vancouver, died yesterday in San Francisco.

ALSO EXPLAINS BANK DEPOSITS MADE BY WIFE

States that Beyond What He Presented She Had No Other Account in any Institution—He Declares It Not True that He Put Away Any Money in Her Name—Announces that He Never Spoke for Segregation, Adding, "If I Am In Favor of Anything It Is Toleration"—Mr. Biggar Reads Telegram from Mayor McNamara—List of Houses Used for Immoral Purposes Supplied in Court.

Alderman Joseph Clarke took the stand at the police investigation this afternoon and replied to a charge that he had deposited \$1,100 in a trust account in the name of his wife.

Alderman Clarke said he had information that a charge was to be made against him of depositing a sum of \$1,100 in the Imperial Bank, it being said that he was "the person higher up." He had never made any such deposit in the Imperial Bank. His wife had an account in the National Trust Company. On January 1st there was a balance of \$236.34 and the total deposits since November 12, 1913 were \$936.75, the total deposits in 1914 up to July 1st being \$825.65.

Mr. Clarke handed to the court a copy of the account as supplied to him by the ledger keeper in the National Trust Company. "Beyond this," said Mr. Clarke, "my wife has no account in any bank or trust company on earth."

"I did not say I was in favor of segregation," declared Alderman Clarke, "if I am in favor of anything it is toleration." He absolutely denied the statements attributed to him by former Chief Carpenter and said: "It is absolutely and completely untrue; I never thought of making such a suggestion to him in connection with this debatable point."

Mr. Biggar read a telegram from Mayor McNamara received on Friday last conveying a copy of an affidavit denying Chief Lancy's statements regarding the circumstances of his appointment. Mr. Biggar said he had not yet received the copy of the original affidavit, but would put it in later if it came to hand.

A list of premises which have been supplied to the counsel in the police investigation as having been used, at one time or another since February 1912, as houses of ill fame, was presented today. The list gives the owners during some part of the time covered by the inquiry 1912, 1913 or 1914, not necessarily all the time.

Nothing was said or given in evidence at the inquiry to show that the owners knew the purpose for which the premises were being used, in many cases the letting of the premises being in the hands of agents.

City Assessor Walker in giving the list to the court said that he had merely supplied the names of the assessed owners of a list of property supplied to him and he assumed no responsibility for the correctness of the addresses.

Alderman Clarke asked if it was not a fact that there were the names of some churches and clergymen on the list. City Assessor Walker said that he did not know of any churches or ministers on the list—so far as they were known to him.

Ex-Chief Lancy was again present at the investigation today. The court has rather enjoyed the jokes passed on to H. Robertson in regard to his extensive clientele among the witnesses appearing at the investigation. Mr. Robertson has appeared for at least a dozen different clients during the inquiry, and after he had appeared in several different capacities Justice Scott remarked: "You had better announce for whom you are acting."

Charles Lancy was the first witness called. He said he was a nephew of Ex-Chief Lancy and had been on the force since Nov. 1912, and continued till June this year. He said he had held the positions of detective, clerk, detective and acting chief of detectives. Carmen Judd had several times been on the police station in connection with two diamond robberies, one in which her own were stolen and another time in regard to Wheeler's diamonds. She was also brought to the station in regard to the Morrison case.

A Loose Customer.
Witness said, describing the custom in vogue at the police station, that sometimes someone would telephone the station and ask for a certain detective, who would go up there and if necessary deal with it on his spot. He would come back and report verbally or in writing to "Chief Lancy," or "Mr. Wain," or "himself" (Charles Lancy). He admitted that there were cases which were never reported.

A Late Visit.
Do you usually pay your business visits about midnight?—There was no selection of this time.

Witness said he met Miss Jones about after midnight. He had seen her a year ago, and he had seen her occasionally ever since.

I have you communicated with Miss Jones since she left Edmonton?—I think I have.

Mr. Biggar: Asking her to come back and open a house at 177 Queen's avenue under your protection?—No.

What was it?—I don't remember the words of the telegram.

(Continued on Page Three)

MORE AND BETTER SERVICE BY NEW C.N.R. SCHEDULE

Summer Time Table Provides for Faster Daily Train to Athabasca.

ADDITIONAL BRANCHES WILL BE OPENED SOON
Camrose and Hanna Divisions Each to Get Three Weekly Passengers.

The Canadian Northern summer train schedule was announced at the local ticket office this morning. Because of the many new lines which are being opened up, the schedule which has been in effect since the beginning of the season is being changed. It will be changed in a number of places, which will be in effect from Monday, July 6, to the end of the season.

The most important change in the schedule, locally, is on the Athabasca branch. The train on this line, which is the only one, will be increased from one to three times a week. The new schedule is as follows:

Beginning Monday next the Athabasca train will leave Edmonton at 12:15 p.m. and arrive at Athabasca at 7:45 a.m. daily except Sunday. Returning it will leave Athabasca at 2:15 p.m. and arrive at Edmonton at 7:45 a.m. daily except Sunday. The train on this line, which is the only one, will be increased from one to three times a week. The new schedule is as follows:

Beginning Monday next the Athabasca train will leave Edmonton at 12:15 p.m. and arrive at Athabasca at 7:45 a.m. daily except Sunday. Returning it will leave Athabasca at 2:15 p.m. and arrive at Edmonton at 7:45 a.m. daily except Sunday. The train on this line, which is the only one, will be increased from one to three times a week. The new schedule is as follows:

CAPITAL EXCHANGE IS CENTER OF CITY OIL STOCK TRADING

All of the 14 booths at the Capital City oil exchange, 42 Jasper avenue, formerly the Orpheum theater, have been rented and many applicants for booths had to be turned down. Everyone is now crowded by one of the prominent oil brokerage firms of the city and during trading hours in the forenoon, afternoon and evening, the pit is crowded by eager sellers and buyers in a noisy and exciting manner. The first of its kind to be opened in the city, has quickly become the oil trading center of Edmonton and the northern part of the province.

The activity of the different stocks varies from day to day. This morning the most trading was done in Athabasca oils, limited, the company which four weeks down in the district north of Ft. McMurray. And in which the British syndicate, with Cunningham and Mowbray-Berkeley, has secured the lease.

Other companies with leases in the vicinity are also proving more active than formerly. The Canadian Oilfield, United States Oil, limited, which has leases not only within a mile of these of the Athabasca concern, but also in the Rose-Stratford and Nakamun fields.

Spend a Sane 4th at the Hudson's Bay!

A New Light on Smokers' Joys Saturday!
TO GIVE EVERY SMOKER IN EDMONTON A BETTER REASON THAN EVER had before for making a special trip to our Tobacco and Cigar department, convenient to Third street entrance, were arranged a number of special features. You can imagine the rejoicing there'll be among men who smoke, over news like the following. But bear in mind that it's a one day affair.

Pure Leaf Tobacco 20c Per Pound
Here's a bargain that will make pipe-smokers rub their hands! The tobacco shouldn't be 20c per pound—more like twice that. It's a pure leaf tobacco grown under exacting care and its luxury and flavor heightened under smilling Tropical sun. Make a "raw hook" smoke to keep any pipe piping in the cheapest mood. Saturday Special, per lb. 25c

GRAND CHALLENGE CUP THIS YEAR COMES TO AMERICA
Helen-ryon-Thames, July 2.—The covered Grand Challenge Cup comes to America. The two American eight-oared crews—the Union Boat Club of Boston and Harvard University—were left to fight tomorrow for its possession. The British syndicate, with Cunningham and Mowbray-Berkeley, has secured the lease.

Other companies with leases in the vicinity are also proving more active than formerly. The Canadian Oilfield, United States Oil, limited, which has leases not only within a mile of these of the Athabasca concern, but also in the Rose-Stratford and Nakamun fields.

WHY LICENSES OF THREE CITY CLUBS WERE RENEWED.

The Bulletin does not know whether to be surprised or not at the fact that the licenses of certain clubs of this city, granted by the Legislature over a year ago and duly incorporated according to statute, were not taken away summarily the other day when the license year terminated. The Bulletin does not appear to know whether the licenses should have been renewed or not—in fact it seems to have a vacant mind on the subject. However, the inference to be drawn from its comment is that there was something wrong in the action of the Attorney General's department in renewing the licenses in common with other liquor licenses which expired in the usual way at the end of the license year.

The facts of the matter are that a deputation from the Citizens' Committee the other day waited on the Minister of Public Works and the Acting Deputy Attorney General. Both the Attorney General and the Deputy Attorney General were out of the city at the time. The delegation asked that the licenses of three clubs in the city be not renewed when they expired on June 30th. The delegation only took action on the afternoon of June 30th, a few hours before the licenses were due to expire. The members of the Citizens' Committee had no definite charges to make, but "on account of evidence which has been given at the police inquiry," asked that the licenses be not renewed.

It is evident that the action of the Citizens' Committee was taken on the spur of the moment. Otherwise it is improbable that any body of business men would expect a government department, or indeed any other department, to find certain organizations guilty and pronounce the sentence before the commissioner holding the investigation has brought in his report.

Further than that, the commissioner has from the start of the investigation laid down the principle that evidence given at the inquiry is not to be used in subsequent proceedings. It would, therefore, be contrary to the principles of common justice and contrary to the rules of the present investigation, "on account of evidence which has been given at the investigation" to summarily take away the licenses of the clubs before the commissioner has reported.

The deputation was told by the Acting Deputy Attorney General, G. P. O. Fenwick, that, pending the receipt of the findings of the commissioner in the investigation, the licenses would be renewed, and at the same time he reminded the deputation that "the department has power to suspend or cancel a club permit at any time."

Any other action than to renew the licenses, which are granted in the first place with an implied promise of continuance, provided that they are not abused and are still needed, would have laid the Attorney General's department open to a good deal of just criticism for hasty and ill-considered action.

LEGACY TO ALL WHO HAVE SOULS.

Three and a half years after the death of John La Farge, artist in stained glass and mural painter, it is found that his net estate is only \$599. His bank account in New York City (he lived in Newport, R. I.) was only \$13; his personal effects were \$18. His gross estate was about \$43,000, but he owed \$25,000, and expenses and commissions of administering the estate were more than \$14,000, and there were odds and ends that reduced the net estate to the beggarly \$599.

His son said, "If he had been commercially minded he would not have been John La Farge."

There is a secret. Here was a man to whom heaven had given rich endowments as an artist. His soul was filled with beautiful thoughts, and he had the skill and patience to put them on canvas, to paint them on walls, to embody them in art glass, to mould them in statuary. All those who have seen and admired and wondered at the beauty of his work are legatees of the artist, John La Farge. Thousands of people are heirs of this man with these many gifts that money could not buy.

He was paid for his work, paid well according to some standards, but he scorned to make money. He had only \$13 in bank. But he enriched mankind.

THE MARKET AT OUR DOORS.

Government trade statistics for the past fiscal year are decidedly embarrassing to Conservative arguments in regard to the "No-truck-or-trade-with-the-Yankees" propaganda. During the fiscal year, exports to the United States totalled \$200,459,373, a gain of no less than \$33,348,991, as compared with the preceding twelve months. Despite the refusal of the Conservatives to take advantage of the American efforts to let down the tariff barriers and give the Canadian farmer freer access to the market of 90,000,000 people, trade has continued to steadily increase even in a year of comparative depression. Even with the tariff barriers still up against Canadian wheat and oats and fish, Canada last year to the United States, wheat to the value of \$6,891,164, oats to the value of \$6,802,403 and fish to the value of \$6,644,365. Canada sent animals to the amount of \$8,518,012 across the line during the last fiscal year. The Canadian farmer and the Canadian fisherman may realize from figures like these what he lost when the reciprocity agreement was turned down.

RECIPROCITY A LA BORDEN.

The first year's operations under the government's boasted reciprocal trade agreement with the West Indies did not justify the boasting which was done in the government press when the agreement first went through. The returns of the Department of Trade and Commerce for the fiscal year which ended March last, show that Canadian trade with the West Indies amounted to \$4,354,849, a decrease of \$1,662,281 as compared with preceding twelve months. Exports totalled \$4,770,200, an increase of only \$41,998. With the reciprocal agreement in force, there has been an actual decrease in trade of over \$1,600,000!

The Adventures of Kathlyn

By Harold McGrath.

SYNOPSIS OF PREVIOUS CHAPTERS.

Kathlyn Hale, believing her father, Col. Hale, in peril, has summoned her, leaves her home in California to go to him in Alaska, India. Unhappily, however, the colonel, named by the late king as his heir, because he feared the American may insist on his royal rights. Upon her arrival in Alaska, Kathlyn is informed by Unhappily that her father is dead and that she is the only heir. A great quarrel is arranged, the central figure of which is Kathlyn, protesting and a chief of the crown. When the crown is placed upon her head, Unhappily announces that she is to be married to him forthwith. Her refusal infuriates him, but because the young queen is not conversant with the laws of the state she will be given seven days to decide.

When Kathlyn retires, at the expiration of the seven days, her refusal to marry Unhappily is received as sentence from the supreme tribunal, that she is to undergo two ordeals with wild beasts. If she survives she is to be permitted to rule without restraint.

Through the pluck and resourcefulness of John Bruce, an American, and fellow passenger on the boat which brought Kathlyn to Alaska, and who has come to her assistance, she escapes unharmed from the two ordeals. With Bruce she flees from Unhappily. The elephant which carries her becomes frightened, and she is thrown, separating her from Bruce and the rest of the party.

After a ride filled with peril she takes refuge in a mountain cave, where she is discovered by a band of Indians, who believe her to be an evil spirit. She is taken to the chief, who orders her to remain at the entrance of the cave. But Kathlyn's heart is all the while with Bruce, and she is forced to flee from it with the savage host in pursuit. A desperate and fruitless search in the jungle, only to fall into the hands of a band of slave traders, who bring her to Unhappily, who, finding her, orders her to be thrown into the dungeon with her father.

Bruce and his friends effect the release of Kathlyn and her father. Unhappily's attempt to recapture them is unsuccessful, and the fugitives escape into the forest. The sacred white elephant, the king's most prized possession, is slain.

Supplied with candles and servants by the king, the party continues their journey to reach the coast, but are overpowered by a band of brigands, and the emperor's results in the colonel being delivered to Unhappily, Kathlyn and Bruce escape from their captors and return to Alaska, where Kathlyn learns that her father is still alive. Kathlyn, in reality a prisoner, is taken to the palace by Bruce. Candles come from near and far, Kathlyn during the night. She is able to get to the palace in disguise to be able to get her father out of Unhappily's hands, and to join him and Bruce outside the palace gates. Her plan is succeeding when the bandits which guard the treasury become free and enter the throne room, throwing the entire court into a wild panic.

(Copyright, 1914, by Harold McGrath.)

CHAPTER XVII.—Continued.

Kathlyn had gone to her room to hide herself. "Want you? But—no!" the colonel swung the young man's hand and turned to go back to Kathlyn.

"Wait a moment, colonel! Suppose I wanted to go, what then? Suppose I should say to you what I dare not yet say to your daughter, that I love her better than anything else in all this wide world; that it will be goodness to follow wherever she goes . . . over into death?"

The colonel wheeled. "Bruce, do you mean that?"

"With all my heart, sir. But please say nothing to Kathlyn till this affair ends, one way or the other. She might be stirred by a sense of gratitude, and later, regret it. When we get out of this—and I rather believe in the prophecy of Ahmed's curse or fate—then I'll always have always been rather a lonely man. There's been no real good reason. I have always desired to be loved for my own sake, and not for the money I have."

"Money?" repeated the colonel. "Never had he in any way associated this healthy young hunter with money. Did he not make a business of trapping and selling the animals, like himself?" "Money!" I did not know that you had any, Bruce."

"I am the son of a hunter, Bruce."

"What! The man who owned nearly all of Peru and half the railroads in South America?"

"Yes, you see, colonel we are something alike. We never ask questions. Had he, I would have been better off. Because I did not question Kathlyn when I first met her, I feel bound to hide her from her misfortune. I should have told her all about Alaska, and warned her to keep out of it. I should have advised her to send native explorers, she to remain in Peru, and we till she learned the truth. But the name have suggested nothing to me nor till after I had left her at Singapore. So I shall go back with you. But please let Kathlyn continue to think of me as a man who earns his own living."

"God bless you, my boy! You have put a new backbone in me. I've had not to have a white man to talk to, to plan with. Ahmed expects that we shall be ready for the return in the morning. He, however, intends to go back on a racing camel, to go straight to my mansion, if I let him be destroyed by this yet. Perhaps Unhappily had not arrived here yet. I trust Ahmed."

"So do I. I have known him for a long time—that is, I thought I did—and during the last few weeks he has been a revelation. Think of his being head man all these years and yet steadily working for his Raj, the British king, as he keeps secrets."

"Well, we have this satisfaction: when Pandita rules it will be under the protecting hand of England. Now let us try to look at the cheerful side of the business. Think of what that girl has gone through, with scarcely a scratch! Can't you read something in that? See how strong and self-reliant she has become, and how many misfortunes as would have driven mad any ordinary woman. Can't you see light in all this? Well, all things are good and evil working for and against us, and that Ahmed's folk will in the end have to pay for all the trouble and grief. When I am out of the ordeal I laugh at such things, but I can't laugh at them, somehow, when I'm in 'em."

(To be continued tomorrow.)

We are Now Drilling

The Maritime Petroleum Co., Ltd.

FULLY PAID UP—NON-ASS'ESSABLE

For a Few Days Shares
Will Be Sold at

25c

EACH
PAR VALUE ONE DOLLAR

Buy Your Shares Now—For when the drills penetrate a few feet further into the earth these shares will increase very rapidly.

FACTS—

Our properties are all on the anticline. Our properties are owned outright by the Company and we do not have to pay any rental to the Government.

We are not working on any leases granted by the Government which may be cancelled at any time if certain conditions are not complied with.

This is a point which should be seriously considered by every person investing in oil shares. On our properties are mud-volcanoes, which show the presence of Gas and Oil.

Vast asphalt deposits are in the near vicinity of our well. The drill is now at work and in a very short time we will know what the under-lying strata consists of.

WHAT—Investors May Be Sure Of:

1.—Every dollar received from the public for shares sold will be used for actual drilling, less the amount for cost of selling.

2.—Every person becoming a share holder will always have an interest in the Company and his shares can never be forfeited.

3.—The Company's areas or rights can never be forfeited as they are owned absolutely by the Company.

4.—That the directors of this Company are men of integrity and of well known business acumen and will give every share holder a square deal.

5.—We have an experienced driller and guarantee that none of the Company's money will be mis-spent.

IN THE PARLOR CAR

Railway and Shipping News

The longest lake trip in America, and probably in the world, is that from Duluth, at the extreme western end of Lake Superior, to as far east as one wishes to go—even to Atlantic tidewater, via the chain of great lakes and rivers ending with the noble St. Lawrence. While this whole trip is seldom taken, except partly by rail, still many from the west, where large lakes are not so convenient, go from Duluth or the Canadian twin ports, Port Arthur or Port William, to Sarina or Port Huron, and take trains from those two points east.

Every year is manifested a greater desire by people in the growing west to take the trip east via the great lakes and Duluth, offering the longest lake trip, is preferred by many. From Edmonton the Canadian Northern offers direct trains to either Duluth or Port William-Port Arthur, also affording a short stop-over at Winnipeg and Duluth.

Other steamship lines make the trip from Duluth to Chicago, thus giving those wishing to visit the middle west metropolises on either business or pleasure, an opportunity to have a lake trip.

The boats of the Northern Navigation Company, including the new and palatial Nereid, sail from Duluth, Port William and Port Arthur, three days a week to Sarina, while those of the Canadian Pacific sail from Port William and Port Arthur to Port Menard five days each week. The Canadian Northern, however, leaving Edmonton at 9:40 each evening, connecting with all steamship lines, and that company has issued special folders regarding the excursions. These folders may be obtained at any of the company's ticket offices.

For the convenience of the members of the Edmonton Canoe club and others the Canadian Northern railway announces that a special Saturday afternoon train will run during July and August, beginning next Saturday, between the city and Morinville, through St. Albert. The canoe club headquarters. The train will leave the First street depot at two o'clock Saturday afternoon. Those visiting St. Albert may return on the Alhambra train at 5:30, or on the special at 11 o'clock, thus reaching Edmonton in time to catch street cars for all parts of the city. The canoe club will hold a regatta at St. Albert each Saturday afternoon and evening during July and August, and a dance in the evening.

An arrangement has just been concluded with the Canadian Northern railway is selling tickets through to points in the north country between Alhambra and Grondard, and those

wishing to travel to these points may do so via the C.N.R. to Alhambra and from there via the steamboats of the Northern Transportation Company. The N. T. company has arranged its schedule so that boats leave Alhambra Tuesday, Thursday and Saturday two hours after the arrival of the Canadian Northern train, which leaves Edmonton at 9 each morning except Sunday.

The Massachusetts legislature refuses to pass the necessary legislation to permit the legal dissolution of the New Haven and allied roads—a measure which the stockholders are dependent for any hope they may have of recovery. That is why President Wilson threatens to take a hand in the game. With a legal dissolution steps could be taken looking to sane and wise and efficient reorganization. And with reorganization, there would, it is stated, be a hope for the hundreds of small stockholders getting back their investments, or a portion of them, at any rate. At the same time, a reorganization would tempt those who had held back in distrust, to take out their savings from the proverbial "red box" and put them into the recovered system. For, unlike most other railway systems, the New Haven and allied roads were owned by the people of the New England states.

It was not the money of foreigners that Mr. Morgan and Jp. Melien were playing ducks and drakes with. It was the savings of the common people—thrifty, according to usage and tradition—proud, too, of their New England heritage and feeling profound humiliation by the wreckage.

These are the people, doubtless, President Wilson has in mind when he says that he will give the poor stockholders a chance.

The three big railway systems which run into Edmonton and their lands locally, as well as all over the Dominion, to handle the special Dominion Day traffic this year. In Edmonton the G.T.P. and C.N.R. equipment was taxed to its utmost. Over 1,500 people were taken to Lake Wabamun on one G.T.P. train, while hundreds spent the day at Cooking Lake and other G.T.P. resorts in the district. The Canadian Northern's three special trains to St. Albert were filled with passengers who took in the canoe club's regatta there; also the regular Alhambra train. The Canadian Pacific has no summer trips, but a large number visited that place last year, while other local people started on longer C.P.R. summer trips, such as the circle tour of the Rockies, which is proving very popular.

At the last regular meeting of the Edmonton board of trade it was decided to send a circular to the members of that body and also to the heads of business houses in the city, asking if it was their wish to run a special train over the G.T.P. to Prince Rupert this summer, also if they wished to

take the regular annual trip through the territory immediately adjacent to the city, or both.

From the replies already received it would seem that most of the members wish to take the Prince Rupert trip, and to cut out the other for this year. The passenger train over its line will not be put on till next spring, it is announced.

At present it is not known whether the G.T.P. is in a position to handle a passenger train over its line all the way to the coast, and if the

trip is taken it will probably be late in August or early in September. The railway is pushing ahead the ballast-laying of its main line as fast as men and money can do it, and it is expected that regular passenger trains will be running from Edmonton to Prince Rupert this fall, though first-class fast trains will not be put on till next spring, it is announced.

The C.P.R. steamship Empress of Britain is reported by wireless as due Quebec today. Passengers should reach the city by the coast, and if the

JOSEPH CHAMBERLAIN DIES UNEXPECTEDLY

Death Removes One of the Most Striking Figures From British Politics in the Past Generation—End Comes as a Surprise as His Health Was Not Publicly Known to Be Any Worse Than For the Last Two or Three Years.

London, July 3.—Hon. Joseph Chamberlain died here last night. The death of Joseph Chamberlain, which removes one of the most striking figures from British politics in the past generation came as an entire surprise, as the condition of his health was not publicly known to be any worse than at any time in the past two or three years.

Mrs. Chamberlain, who never left her husband's side since he was stricken with paralysis several years ago, and his son Austen Chamberlain, were with Mr. Chamberlain when death occurred at 1:30 o'clock last night at his London residence. The event cast gloom over the London season.

Mr. Chamberlain's last public appearance was at a garden party on the grounds of his Birmingham home, May 6 last, when with his wife and son he received several hundred constituents. Mr. Chamberlain was wheeled out on the lawn in a chair and appeared very enfeebled and feeble when he lifted his hat to friends and neighbors in acknowledgment of their salutes.

Taxif reforms, which with imperialism, were the chief policies for which Joseph Chamberlain was spokesman, were enforced retirement through par-

alysis occurred, have suffered an almost complete eclipse, his son, Austen, being almost the only British statesman who advocates them on all occasions.

The cause of Mr. Chamberlain's death was officially announced today as heart failure. Although he had been gradually sinking since Tuesday the members of the family had preferred that his condition should not become public knowledge.

Sketch of Joseph Chamberlain
Joseph Chamberlain was born in London, July 8, 1836, one year before Queen Victoria came to the throne. Although a Londoner by birth, it was in Birmingham that his large wealth and his political reputation were gained. He went to Birmingham in his 14th year to join his cousin, Joseph, in the firm of Joseph Chamberlain & Co., in developing a patent for the making of painted cases. The firm became known the world over in a few years.

On the death of his father in 1874, Mr. Chamberlain made a sufficient fortune to retire, and he devoted himself entirely to local politics. He was chairman of the school board, and finally mayor in 1879, being elected three times in succession. His entry into parliament was a reversal of tradition. Members were at first surprised that this young screw manufacturer from Birmingham knew how to dress. The arrival into what was regarded as a select club of a man educated at University College, with a profound ignorance of sport and no training but a purely business one, was an innovation among the governing classes, and it was said that he was suited to the task of governing a parish rather than legislating for an empire.

Yet he achieved cabinet rank in four years, although some persons had to be put upon Mr. Gladstone to appoint him president of the board of trade in 1885. He was president of the local government board. Mr. Chamberlain was an opponent to coercion and had formulated the celebrated scheme for settling the Irish peasants on their land, known as that of "three acres and a cow," but his repugnance to farming, and his inability to follow Mr. Gladstone's proposal for a separate settlement in Ireland, led to his resignation on March 27 of that year. About this time he added to his reputation as a statesman as one of the plenipotentiaries at the conference on the fisheries dispute with the United States.

In 1888 Mr. Chamberlain was elected for the third time, to Miss Edgerton, daughter of W. C. Edgerton, who was president Cleveland's first secretary of war.

Some surprise was caused by his appointment in 1895 to what was then regarded as the minor post of colonial secretary by Lord Salisbury. In 1897 and for the next two years he was Lord Rector of Glasgow University. This was the year of the workmen's compensation act and the conference of colonial governors.

The Transvaal war of 1899-1902 is recent history. It is generally believed that Mr. Chamberlain's conduct, more than those of any other British statesman, resulted in the great struggle which made all South Africa British. Never once during that struggle did he waver in his belief that British arms would be triumphant. After the war ended Mr. Chamberlain made his famous journey to South Africa and did most valuable work in helping to bring about good feeling between Britain and Boer.

In May, 1903, he announced his scheme for fiscal reform, which since then has divided political parties and led to a number of cabinet resignations. Mr. Balfour finally resigned office in December, 1905, and the general election ended in a wholesale defeat for fiscal reform. The unionist party in the house of commons was reduced from 225 to 147.

During the last 20 years, whenever liberal unionism has been mentioned, Joseph Chamberlain's name has come to mind. It is natural that this should be so; for no man is more responsible for the strength and vitality that characterized liberal unionism between 1880 and 1892 than he. He was the life of the organization in parliament and in the country during those years.

He overtopped Devonshire and Goschen, Bright and Lord James of Hereford. His tastes were domestic. He often described himself as one of the worst athletes in England. Whatever the advantage to the British nation may be of the cause he fought for, he was unquestionably a fighter. Parliament was his hobby and his recreation, as well as his work and his industry was immense. All his life he was a Unionist.

Mr. Joseph Austen Chamberlain, his eldest son, was born of his first wife in 1862. He entered parliament in 1892. He has been civil lord of the admiralty, financial secretary to the treasury, postmaster-general, and in 1902 was appointed chancellor of the exchequer. He married a Miss Dundas, daughter of an officer in the British army.

It is not generally known that Joseph Chamberlain had by his first two wives another son and four daughters, all living, except a married daughter, Mrs. Richards, who died in 1896, leaving a daughter.

Believe Beaver Lake
BIGGEST GOLD STRIKE
SINCE COBALT DAYS

Prince Albert, Sask., July 3.—Men returning from Beaver Lake yesterday said the shaft was down 24 feet on one property and gold deposits are thicker than on surface rock. These men say Beaver Lake is undoubtedly the biggest strike since Cobalt.

HALIFAX BALLOONIST DROWNS FROM CRAMPS WHEN MACHINE FAILS

Halifax, July 3.—Joseph Stanley Purcell, a Halifax aviator and balloonist, tragically ended his career at 7:15 last night by being drowned in the Avon river at Windsor, while making a descent from a balloon.

The victim of the accident was descending from the balloon, which had risen several hundred yards, when a wind carried him over the river, but not far enough to make him land on the other shore. When it was seen he was likely to hit the river, boats were sent out. The aviator was a strong swimmer and immediately struck out to reach the shore, but within 20 yards from the Avondale shore he suddenly sank, supposedly from cramps. The body has not been recovered.

Group of Cities
FOR PEACE RIVER
COUNTRY CERTAIN

Crossing Largest of These, Says Minneapolis Man After Trip Through Country.

Business Section Will
RAPIDLY MOVE UP HILL
Points Out Significance of Navigation to Vast Regions North and West.

"Since I have made my present trip to the country north and west of Edmonton, I have heard some people say that the people of Peace River Crossing are very optimistic and that they are discounting too much the future, admittedly bright, of the country of which it is the center. But since I have been up there and seen the Crossing itself and the country surrounding it, I have become more optimistic than most of those with whom I have come in contact."

That was the way R. M. Powley, of Minneapolis, answered a question asked of him regarding Alberta yesterday in the King Edward hotel, where he stayed for a few hours between trains, enroute to Peace River Crossing.

Mr. Powley is going to the States tomorrow to discuss the proposed permanent in the Peace River district. He stated that he had looked over practically all the country between here and west and north of Peace River Crossing and had come to the conclusion that the Crossing was in just about the ideal position now that Edmonton was just before the Canadian Northern main line arrived from the west coast, and would have a future for the next 10 years like Edmonton has experienced.

"It is rather remarkable," he stated, "that those in the north country have not taken into account, apparently, the fact that the Peace is a navigable river and will give points on it that much advantage over Edmonton, which is on the unnavable Saskatchewan." This means that as soon as one railway reaches the Crossing from Edmonton, and I understand one will reach there within a year, that railway will have, during six months of the year, two great arms of the Peace river, virtually branches or feeder, stretching out—one north to Fort Vermilion, and the other west to Hudson's Hope, B.C.

"When I say some people have apparently not taken the fact into account, I mean that they apparently believe that the future business center of that coming city will be down in the valley, as at present."

"I believe that practically all of that part of the town known as the flats will soon be used for railway tracks, wharves and warehouses—so much so, that the retail section will rapidly move up the hill and the pettifol business thoroughfares will be there. That is how Edmonton and dozens of other cities moved, and the fact that the Peace is a great navigable river makes it all the more certain. In the case of Peace River Crossing."

About the country itself Mr. Powley declared that he had never seen such land. If he was a judge of land at all, he did not hesitate to state that the land between Peace River Crossing and Dunvegan was the most fertile in America. That and other parts of the vast territory was being settled up by the very finest people from the States, eastern and western Canada, and elsewhere, and Mr. Powley predicts that when the first railroad is built there will be so much business waiting for it that others will rush in their lines quickly.

Regent Oil Company

Non-Personal Liability

Regent Oil Company Limited is strictly a "shareholders' company". It is organized for the purpose of reaching oil and paying dividends at the earliest possible moment.

Not only are its properties well located in the conceded oil area, but it has the splendid advantage of having both water and coal, and being within one mile of the railway. The leases owned are in the same neighborhood as Unity Oils Limited (leases selected by E. H. Cunningham-Craig) and near the Dome and Christie Wells.

Nearly five years ago Wm. Hutchison, A. M., I. C. E., in reporting on this property stated that on sections 5 and 6, Tp. 26, R. 4, W. 5., he found traces of oil on the land, and that as the property is located in coal measure and near an anticline, he considered this significant. In view of later developments and findings this report assumes great importance.

The Regent is incorporated for \$1,000,000, par value of shares \$1.00 each 178,333 shares of class A stock is now offered at par, each share carrying an option to purchase at par two shares of class B stock upon oil being struck in commercial quantities on any of the Company's properties.

Vendor's stock has been placed in escrow until 50,000 shares of Class A stock are sold, and vendors bind themselves not to sell this stock at any time under par.

Regent Directorate

President, The Hon. C. W. FISHER, M.P.P., Cochrane, Speaker of the House. Vice-President, F. M. GRAHAM, Calgary, Sheriff of the Judicial District of Calgary. Secretary-Treasurer: JOHN H. WILLIAMS, of Williams & West Auditors.

BANKERS: THE UNION BANK OF CANADA.

DIRECTORS

GEO. H. BURROUGHS, President Burroughs & Co. Ltd. JOHN LYON, Broker

WILLIAM SAUNDERS, Publicity Manager, Henderson's Directories. BERTRAM V. JACKSON, Pres. and Mgr. Director Jackson Water Supply Limited.

Vital Facts About Regent Think Them Over

REAGENT has both coal and water in ample quantities.

REAGENT has splendid acreage.

REAGENT is organized on lines which encourage prompt development.

REAGENT expects to bring in a producing well quickly.

REAGENT at \$1.00 per share, each share carrying an option to purchase two additional shares when oil is struck, is a fine buy.

REAGENT has a Directorate of which it is proud.

MEDICINE HAT AND ESKIMOS TIE
EDMONTON HORSES WIN AT CALGARY

SPORTS

Edited by Cliff Dunham.

Sport Phone 1166.

ESKIMOS AND HATTERS TIE 3-3:
SOME ROUGH-NECK "BOTTLED" UMP'S

Edmonton Team Back to the Cellar. A Very Good Game With Plenty of Excitement. A Couple of Bone-Head Plays Didn't Help the Eskimos to Win

There was no lack of enthusiasm at the rights ball game, and all the thrills and thrills that sometimes go to make up the popular pastime, were present. And some were in greater quantities than they ever should be, to wit: rowdiness shown by a number of sore-head fans after the game in making a rough passage for "Under Wheeler," with the result that some over-zealous rough-neck located the soft spot on Wheeler's head, and last night putting the unpopular of the field down for the count, and terminating a very dirty game by a bone-head play, the rattle which threw the bottle from the grand-stand, who, if he had been located by the police station, would have been had to appear on a charge of assault. A thirty-five term would have been the party in question. Last night apparently was the climax to several days of unpopularity of "Under Wheeler," but it's a safe bet he'll be on the job again tonight, or to repeat Wheeler's own words, "I'll quit when my pay quits."

Two Tie Games. Eskimos have played to tie games in the last two days. The visiting team was Medicine Hat. It would seem from all appearances that the Eskimos don't lose the best they can do for it, which isn't much good as far as league standing is concerned. Even Calgary, who have been in a bad slump, are ahead of us, and our only salvation as regards pennant ambitions, is that it is decided at Saturday's meeting, to split the league. Well, let the Eskimos manage their own strategy for this arrangement.

Some Rough Stuff. Another feature at the game last night, and somewhat more so than usual, was the amount of subterfuge whatever that means, language, issuing from the Eskimos' bench, in much to the disgust of a large number of lady fans sitting in the vicinity. In other words, cut out the loud swearing, and play ball.

Should Have Won. For a long, long time it looked like the Eskimos' game, and without a couple of bone-head plays, it would have been for the locals started off by getting two in the third inning to the Hatters one. And the Eskimos were still further in the lead in the sixth when they secured their third tally. But then came the inevitable, and the Hatters scored in the eighth and ninth. The old game went ten innings to break the tie, but neither team could score in that frame and the game was called, only to start trouble for ump's.

Some Features. The game was not without its good spots either. Crum's one-hand catch of Dunn's Texas leaguer after a long, hard run, was quite a stunt, as was also Dunn's home run, "clout to the right corner." Daniels is like chain lightning on the bases and the fastest man in the league. He proved this in the eighth inning, when he got to first on fielder's choice and sneaked around the base one at a time, and finally stole home when a couple of Eskimos were asleep. Mike Lemieux was also in the line-up as usual, when he tore a hole in the grandstand when he went after a foul fly against the netting. A twisted ankle put him out for a while, but he kumby stuck to the ship.

SENSE IN THIS!

When a Man can Hat himself at Hudson's Bay for several dollars less than he can at the store on his face that there he should go. Cool Panamas this week are only \$1.00 in that Greater Men's Store.

LOCAL SOCCER NOTES

City Dairy vs. Welsh. There was no scoring in the game last evening between the City Dairy and the Welsh team, the play going to a scoreless draw. The game was close, contested by means of the fact that both teams are fighting for first place in the intermediate division. Referee Campbell was in charge and lined the teams up as follows:

Welsh—Goal, Stokton; backs, Anderson and Palmer; half backs, Tipples, Saint and Lewis; forwards, Bennett, McCluskey, Nichol, Griffiths and James.

City Dairy—Goal, Dick; backs, Smith and Lindsay; half backs, Taylor, Serriter and Tait; forwards, McClelland, McIntyre, Galloway, Elliott and Swan.

Amateurs vs. Civics. The Amateurs C.C. will meet the Civics in a City League match at the 21st grounds on Saturday afternoon, commencing at 2:30 o'clock. The following players will represent the Amateurs: F. Parker (captain), W. Dixon, A. E. Parker, S. Jennings, C. S. Parker, E. Parker, J. A. Ferrington, D. Bouding, H. T. Pyle, J. Jacques, W. D. Turner.

BRONKS DEFEAT
ROBINS 14 TO 8

Seaton Was Fought for 18 Hits and Frink for Eight.

Calgary, July 2.—Joe Seaton was easy for the Robins' opening home engagement after a somewhat disastrous road trip, being fought for 18 hits. The Bronks won the game by the score of 14 to 8. Frink pitched a very good game of ball and kept the well-earned victory for the eighth inning, when four hits and an error netted the visitors four runs.

MAROONS TRIM
FARGO 12 TO 3

Kirkham Got Five Hits Out of Six Times Up; Winnipeggers Lead.

Fargo, N.D., July 2.—Four local pitchers could not stop the onrushing Winnipeggers yesterday, and they won the opening of the series handily, 12 to 3. The Curties warriors, minus their leader, who was called home by the illness of his wife, were denuded with the stick and gathered a total of 15 hits for a total of 22 bases. Kirkham was up six times and got five safeties, including a double and homer. Klontz started on the mound for Fargo and of the eight men who faced him, six got hits and one walked. Maupin lasted just one inning and was followed by McLaughlin, who yielded four hits up to the sixth stanza, when Dumont took up the burden. He held the visitors fairly well, but the beans had been spilled and the game was on ice.

KILBANE HAD FIGHT WITH MARR. Cincinnati, July 2.—Johnny Kilbane, champion featherweight, fought 10 rounds here last night with Knockout Marr, of this city. No decision was given, but the champion had the better of most of the rounds. The newspaper and popular verdict awarded the fight to Kilbane.

WIN AT CALGARY

Wheat City Stables' Entries Are Well Up in Running Events.

Third race, running, 5 mile, purse \$100. McCluskey, Wheat City Stables, Edmonton, (Cummings), won; Sam Rank, Anderson and Lunney, Regina, (Robertson), second; Grassy Pavement, R. R. Flunkett, Calgary, (Stavely), third.

Fourth race, running, 5 mile, purse \$100. Athabasca, J. D. Ferguson, Saskatoon, (Singleton), won; Neville, Wheat City Stables, Edmonton, (Cummings), second; Gimmel, Otto Rice, Alliance, Neb., third. Over finished first, but was set back to last as penance for rough riding. Time—1:17.5.

Sixth race, running, 1 mile, purse \$100. Marcus, J. D. Ferguson, Saskatoon, (Singleton), won; Castlegar, Oll City Stables, Edmonton, (Weber), second; Hermin, Wheat City Stables, Edmonton, (Cummings), third. Time—1:14.6.

EDMONTON TENNIS
CLUB DEFEATED
RED DEER EASILY

On Dominion Day a friendly match was played at the Edmonton Tennis Club between Edmonton and Red Deer. The local players captured 12 of the 14 sets, and the visitors remain decisively with them.

The feature of the day was the playing of Alkanon of Red Deer, a youngster who learned the game in the West Indies. Gullion, whose abilities are well known, had a strenuous time defeating him, and at that both the one went to defeat.

In the mixed doubles some excellent tennis was seen when Alkanon and Miss Fraser defeated Gullion and Miss Davies in straight sets.

Playing at the top of her game, Mrs. Talbot as usual won her match comparatively easily. Johnson and McLeod both excelled in their acute volleys from the net, and had no difficulty in winning their singles in straight sets.

In the men's doubles Johnson and Mills, who proved to be a strong combination, played a fast game and easily won against Alkanon and Neill.

Mrs. Wilson, playing a strong defensive game, defeated Miss Quigg, although the second set ran to deuce. Luncheon and tea were served in the clubhouse, and a large number of tennis enthusiasts were present to lend their support and enjoy the play.

The results were as follows: Men's singles—Gullion defeated Alkanon; Johnson defeated Neill; Seymour defeated Moore-Gibson.

Ladies' singles—Mrs. Talbot defeated Miss Fraser; Miss Wilson defeated Miss Moore; Miss Munro defeated Miss Wilson.

Mixed doubles—Miss Fraser and Alkanon defeated Miss Davies and Gullion; Mrs. Talbot and Mills defeated Miss Quigg and Neill; Mrs. Wilson and Hogg defeated Mrs. Moore and Moore; Mrs. T. Davies and Brown defeated Miss Moore and Gibson.

Baracas Win. The Journal Interests played an exciting intermediate game to a 5-4 score for the latter. Most of the play occurred in the sixth inning where the game was won and lost.

The line-up was as follows: Baracas—W. Igna, Griffin, R. Beale, E. Beale, R. Chubb, C. Orgins, C. Chubb, E. Chubb, and E. Davis. Journal—J. Mansel, Robinson, Barron, Kelly, Michaels, Dodge, Umpire—Adorley.

QUAKERS WIN
FROM RED SOX

Much Cheating of Rag Cost Players Fines—Score Was 5 to 3.

Saskatoon, July 2.—The Quakers yesterday defeated the Red Sox 5 to 3 in which wrangling was a feature. Manager Bitts of the Red Sox, was fined \$5 and led from the field by a constable, which added another hit. J. Smith was also fined. Three errors assisted the Quakers in coming out on top.

Score— Quakers, 5; Red Sox, 3. Batters—Schubert, Berger and Netzel; Northrup and Walters.

LOU NORDYKE RESIGNS AS
MANAGER OF THE ESKIMOS

Manager Lou Nordyke of the Edmonton Baseball Club has resigned. The occurrence took place last night, when he handed his resignation to Deacon White, said resignation to take effect immediately. This action on Lou's part is no doubt a big surprise to everyone, but Nordyke's leg has gone back on him again and he would only be able to play in some games for the balance of the season, while his contract calls for him to be a playing-manager while his large salary is in force.

Nordyke has been very popular with the fans and for the first half of the season was hitting well over the .300 mark and fielding at .990, and was without doubt the best first baseman ever seen in the Western Canada League. Nordyke is well off financially, owning a large fruit ranch at the coast. He has been most unfortunate with his players in having so many on the injured list and the team has had no end of hard luck. Edmonton fans will regret to see him go.

For the balance of the season the team will be in charge of Deacon White, who in other years has piloted the team to a first division position and will have enough material on hand to effect the same yet this season. Two new players, one a well known pitcher, are on the way now to join the team, and with any break in the luck, the Eskimos can still be near the top at the finish. Roy Lemieux, the local catcher who has proved himself to be a heady and clever ball player, will act as field captain for the rest of the season. He was injured in last night's game but will likely be back in harness this evening against the Hatters. To the retiring manager, Lou Nordyke, Edmonton fans wish good luck.

WAS JOHNSON-MORAN BOUT FAKE?

Jack Adams, One of the Negro's Trainers, is Alleged to Have Confessed That Johnson Agreed to Let His Opponent Stay the Limit for the Moving Pictures; Champion Will Meet Langford in London in October

Paris, July 2.—Disput at the Hippodrome staged at the Velodrome d'Hiver by Jack Johnson and Frank Moran was marked here today by open charges of fake.

Several of the newspapers made flat charges that Moran was allowed to slip 20 rounds by the negro for the moving pictures, and that Moran knew before he entered the ring that he was to be knocked out before the first bell rung.

It was stated here today that Johnson and Langford are to meet in London in October, Johnson having agreed to meet the other negro for \$30,000.

Kansas City, July 2.—(Federal) A wild pitch, Brester took Fenwick's place and stopped the rally. Packard held St. Louis to seven scattered hits while the locals collected 16, and Kansas City won yesterday's game, 9 to 1.

Indianapolis, July 2.—(Federal) The Chicago club went into first place in the Federal league yesterday by winning from Indianapolis, 7 to 2.

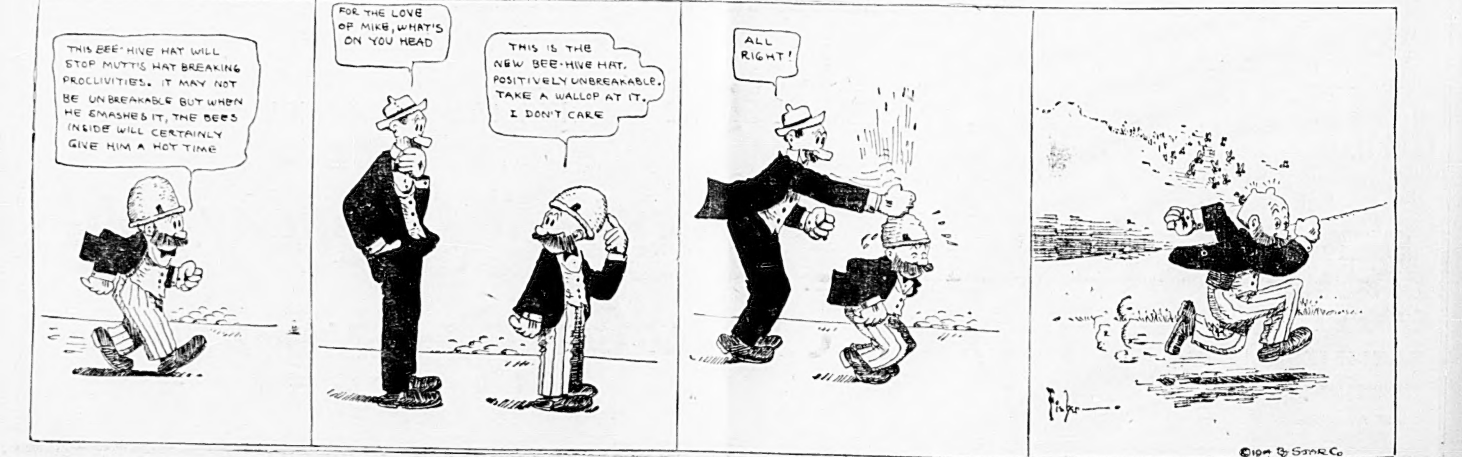

Washington, July 2.—(American) New York won the final of the series with Washington yesterday, 6 to 1, by hitting Bentley hard while Caldwell held the Nationals safe throughout. Manager Chance shook up his batting order, sending recaptured Mullen to first and Boone to second. An unusual double-play occurred in the sixth. With men on first and second, Morgan missed Tulley's fly, but recovered the ball in time to force Jackie Fausch at second. McBride then threw to Foster, doubling Hartzel at third.

Philadelphia, July 2.—(American) Both games of yesterday's double header were won by Boston. Philadelphia, the scores being 7 to 6 and 7 to 1. A ninth inning rally gave the visitors the first game. In the second contest Coumbe had a battle with Fenwick until the eighth when Boston knocked out Fenwick off the rubber and pined up four runs on four hits, a sacrifice fly, a stolen base and a walk.

Detroit, July 2.—(American) Hitting when hits meant runs yesterday, Detroit fought out Cleveland in the opening game, 4 to 0. Each of the Tigers' runs was batted in with a safe hit. Davies held the Naps safe at all times. It was his first victory over Cleveland since 1912.

But It Was Jeff Who Did the Running

TELLS OF BOMBS AND POISON FOR ROYAL MURDER

Missiles Were to Be Thrown
and Then Assassins Were to
Drink Fatal Dose.

CONFESSION INVOLVES ACTUAL PERPETRATOR

He Says His Accomplices Went
Back on Him and He Will
Betray Them.

Vienna, July 3.—Gabrilovitch, who threw the bomb at Archduke Francis Ferdinand and his wife while they were proceeding to the Sarajevo town hall last Sunday, has made a complete confession, according to dispatches received from Sarajevo.

In his confession Gabrilovitch says that after learning while at Belgrade that Archduke Francis Ferdinand was going to Sarajevo, he communicated with Gavril Princip, who fired the fatal shot, with the result that they resolved to do there also and kill the archduke, the duchess and their suites, and the themselves for the fatherland.

To obtain bombs, they applied to Major Prbilitchevich, secretary of a pan-Serbian union, and formerly an officer in the Austrian army, who had joined the Serbians. Through him Gabrilovitch says, bombs and revolvers were obtained from the Serbian arsenal at Kruguevatz.

Gabrilovitch undertook to find four other bomb throwers, and it was agreed that when the archduke was seen approaching each should hold a bomb in his right hand and a bottle of poison in his left hand and drink the poison after throwing the bomb.

Gabrilovitch succeeded in finding accomplices, one of whom was a Belgrade student named Grades. The conspirators traveled separately to Sarajevo where the bombs were divided among them in a confederacy along on the morning of the attempt.

According to Gabrilovitch, Princip told him that he had given bombs and poison to three other comrades whose names he did not divulge.

"I now regret my crime, for my comrades deserted me in a shameful manner. They should have thrown the bombs, but the cowardly scoundrels did not. Consequently I revenge myself at them by betraying. Leave me alone till tomorrow and I will give more details."

Grades has been arrested and admitted having received bombs and poison.

Several French artists have agreed to sign all their works in future with thumb prints.

SOUTHERN ALBERTA LAND DEBENTURE HOLDERS ARE SUMMONED TO MEETING

London, July 3.—A circular from the Metropolitan Trust company summons a meeting of debenture holders in the Southern Alberta Land company for the purpose of authorizing a receiver and to make further application to court. It is stated the \$500,000 referred to at the recent meeting would be expended upon works which the government will possess the right to supervise, and would be secured upon the receivers taking the ranking priority to debenture stock maturing December 31st, and carrying 7 per cent. interest and 2½ per cent. commission.

Unless necessary, the company is promptly given and the receiver is able to raise the amount he will have no course but to go to work. The resolution authorizing him to make application to the court will accordingly be prepared at the forthcoming meeting.

Crowds at Cooking Lake.

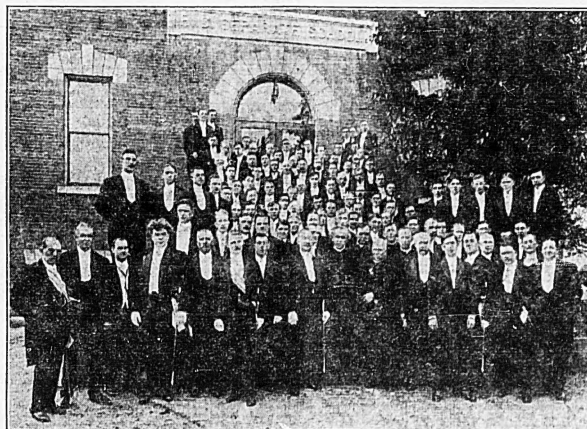

That Dominion Day was suitably observed by several hundred Edmonton citizens who journeyed to the local resort on Wednesday was evident by the unusual activity of the C.T.P. railway officials, who found it necessary to add eight extra coaches onto their regular trains to Cooking Lake. The north shore of the lake presented an unusual appearance shortly after the arrival of the trains, the probably closest western resemblance possible to the annual Ganges river baptism in India. Being a shortage of bathing costumes, trippers resorted to creating fashions for themselves in this direction. Despite the large number of rowboats and small craft available at the lake this year, the supply was none too large for the unexpected influx of people. The very moderate charge of 25 cents per hour for the use of rowboats is a step in the right direction in persuading people to water recreation, for which Cooking Lake caters are to be commended. A large number of permanent summer residents took possession of their different abodes Wednesday, a fact which really commences in earnest the vacation activities at Cooking Lake. No boats are being put on the lake every week.

A new venture this year is the fitting up of a large scow which is filled with trippers and towed around the lake on a sight-seeing excursion of two hours. That this was popular work was one of the most impressive ever seen in Alberta. The knights were attired in the full regalia of the fourth degree, and presented the amending bill offered the only chance of accomplishing this.

The Duke of Abercorn, speaking yesterday as an Ulster volunteer, said that he looked upon the bill as the only loophole he could see for the avoidance of a most awful calamity.

The Marquis of Londonderry, chairman of the Ulster unionist council, said that the bill was a horrible one, but that he would support it in order to avoid civil war.

DEGREE TEAM AND CANDIDATES FOURTH DEGREE KNIGHTS OF COLUMBUS.

The fourth degree of the Knights of Columbus was accomplished here on Dominion Day by Mr. T. D. Leagan, master of the fourth degree for Alberta, Saskatchewan and Manitoba. Mr. Leagan was assisted by Messrs. J. J. Callahan, John O'Connor, and Rev. Father Flouide, O.M.L. of Winnipeg; Mr. A. O. McKinnon, of Regina; and Messrs. Wilfred Gariepy and J. T. J. Collison, of this city. The occasion was also honored by the presence of His Grace the Archbishop of Edmonton, and several of the clergy.

The class consisted of 160 candidates, among whom were followers of Columbus from all the centers of Knighthood in the province.

The parade from the separate school hall to St. Joachim's church, which took place immediately after the initiation work, was one of the most impressive ever seen in Alberta. The knights were attired in the full regalia of the fourth degree, and presented the amending bill offered the only chance of accomplishing this.

The Duke of Abercorn, speaking yesterday as an Ulster volunteer, said that he looked upon the bill as the only loophole he could see for the avoidance of a most awful calamity.

The Marquis of Londonderry, chairman of the Ulster unionist council, said that the bill was a horrible one, but that he would support it in order to avoid civil war.

Gariepy, K.C., who introduced the various speakers in a very happy manner. The watchword of the fourth degree, Patriotism, was the keynote of the speeches of the evening. His Grace Archbishop Leagan, after proving that religion was the very foundation of our civilization, made a strong appeal to the knights to stand firm against those movements of the present day, which seek to destroy not only Christianity and all religion, but which if untempered would sweep away the very civilization itself which it has taken centuries to build up. It is unfair to discriminate, but special mention should also be made of the speeches of Messrs. Roche, Callahan, McKinnon, Hanley, Wells, Collison and Leagan. "God Save the King" brought the function to a close, and both the old and the new members of the fourth degree left the hall with a stronger inspiration to work and live for country and for God.

Perhaps the most pleasing part of the day's proceedings was yet to come. The ladies of the Catholic Women's league, under the competent direction of Mrs. B. J. Gorman, had prepared a banquet for knights in the parish hall, and had provided an array of delicacies that more than sustained the reputation of the ladies of the Catholic Women's league in this direction. The toastmaster was Hon. Wilfred

that the amending bill offered the only chance of accomplishing this.

The Duke of Abercorn, speaking yesterday as an Ulster volunteer, said that he looked upon the bill as the only loophole he could see for the avoidance of a most awful calamity.

The Marquis of Londonderry, chairman of the Ulster unionist council, said that the bill was a horrible one, but that he would support it in order to avoid civil war.

FORMER EDITOR SUES VANCOUVER NEWSPAPER AND ITS PRESIDENT

Vancouver, July 3.—John P. McConnell, former editor of the Sun, a Vancouver morning paper, has issued a writ out of the supreme court against the Burrard Publishing company, owners of the Sun, and F. C. Wade, president of the company. Mr. McConnell alleges that his suspension and subsequent dismissal from the position of editor came as a result of Mr. Wade's desire to himself control the policy of the paper and their difference of opinion which developed particularly over the newspaper comments on the case of Jack Kong. McConnell alleges that Wade's view was in his opinion too friendly to the Chinese side of the case, and an editorial written by McConnell and published against instruction denouncing Orientals and approving wholesale dismissals of Chinese from private homes, was the climax, according to the lengthy recital of the writ, which caused the final break.

Mr. McConnell is suing for \$25,000 damages and an injunction from the court to prevent Mr. Wade continuing to dictate the policy of the paper.

Mr. McConnell alleges that Mr. Wade's pro-Chinese attitude was in direct contradiction to the articles of incorporation of the company, which called for support of the liberal party.

TROUBLE BREWING AT COAST OVER PLAYER KENDALL

Vancouver, July 3.—The Vancouver Athletic club's dispute with P. J. Lally of Cornwall, trustee of the Macnup club, is warming up. Today W. M. Clark, president of the V. A. C. Macnup club, received this wire from Lally: "If you play Kendall trustees will call upon you and Oppenheimer as per your bond to return. Macnup cup immediately. This is absolutely final and any further telegrams will avail you nothing."

(Signed) "P. J. Lally, chairman."

President Clark immediately fired this message back to Lally: "We received. Message unsatisfactory. We insist upon your writing us collect full report minutes trustees meeting and evidence submitted upon which your finding against Kendall was based. Finding Kendall bankrupt. If this information not received before July 10th."

Wine Big Stakes.—Newmarket, Eng., July 3.—At the Newmarket first July meeting today the Ester met, £1,000, for 2-year-olds, 6 furlongs, was won by Col. Hall Walker's Let Fly, by White Eagle Gossale, who started an even money favorite. August Belmont's Danger Rock, 7 to 4, was second, and his majesty's Prince, 10 to 1, third.

The Princess of Wales' stakes, £2,000, one mile and a half, was won by Lord Cadogan's The Curlew, by Spensmirt-Curraglow, another even money favorite. His majesty's Brinkman, 2 to 1, was second, and Col. Hall Walker's White Prophet, 100 to 1, third.

1914 EXHIBITION WILL BE GREATER THAN ANY OTHER

Ample Accommodation Now
Insured for Increasing Live
Stock Exhibits.

NEW ADDITIONS TO BE FINISHED FOR OPENING

Contract Also Let For Enlarged
Manufacturer's Building
for Next Year.

Contracts have been awarded to the construction department of the city of Edmonton for the erection of new cattle and sheep barns, an addition to the manufacturer's building, and a large, modern lavatory on the exhibition grounds. The fixtures for the latter building are being furnished by the Carroll-Wilson company of Edmonton, and the plumbing will be done by Ross Brothers, limited.

The construction of all these buildings, with the exception of the addition to the Manufacturer's building, will be commenced immediately and rushed through in order that they may be available for use before August 1st, the opening date of the exhibition.

It has been deemed advisable to refrain from starting work on the addition to the Manufacturer's building until after the exhibition, on account of the short time, which might not be sufficient to insure its completion.

Other preparations for the exhibition are going on constantly. Sup. Stewart has moved the hitching and saddling paddock further east on the grounds, and is at present erecting a new shed for the post-mortem machines.

The roads on the grounds are being greatly improved, and the track laid in the pink of condition.

"Watch us grow" is the slogan of the Exhibition association, which adorns the 1914 exhibition banner, and those who follow this advice will realize more than ever, with the close of the exhibition, that they are witnessing one of the phenomena of western Canada.

WIFE'S DEPARTURE IS THOUGHT TO MEAN PRINCE'S ABICATION

Vienna, July 3.—Princess William of Wind, wife of the new ruler of Albania, today left Durazzo with her children in consequence of the critical situation there. She has gone to Bucharest. It is generally believed that the departure of the princess foreshadows the abdication of Prince William.

NOTICE TO THE PUBLIC

IT is about one week since the CUNNINGHAM-CRAIG-MOBRAV-BERKLEY SYNDICATE bought a large interest in the Athabasca Oils Limited. It is needless to say than Cunningham-Craig, B.A., F.G.S., is one of the most eminent Geologists in the World.

The above Company had already STRUCK OIL in three wells, which analyzed as follows—

ANALYSIS	
Gasoline and Naptha	7.1 per cent
Kerosene, fraction	60.1 per cent
Lubricating oil & asphaltum 32.8 per cent	
100 per cent	

Vancouver Sun.—(Statement by Guy R. Andrew, Mining Engineer)—Generally speaking, the country near Fort McKay is worthless, except for fuel oil and asphaltum. It is a wonder in oil possibilities. He calls it a vast oil reservoir. Everything is soaked with oil—the rocks actually exude oil, and the streams glisten with it. At some period the oil has burst its bounds, flooded the country and then time has made much of the surface impervious and sealed the oil channels.

DIRECTORATE OF U. S. OILS:	
TOM DUCEY	WM. McCALLUM
FRANK McQUEEN	DR. A. R. MOODIE
C. T. JOHNSON	W. H. JACKSON

Their four wells are drilled in a direct line towards our property. Their fourth well is better than their first well. We will drill about one mile from their well No. 4 and on this anticline. Geologists say THE LARGEST PETROLEUM RESERVOIRS IN THE WORLD UNDERLIE THESE PROPERTIES.

THE U.S. OILS LIMITED

OFFER A SMALL INITIAL
BLOCK OF 50,000 SHARES
Par Value \$1, to Investors at **25c**

Nearly one-third of these have been already applied for. At this rate of subscription there will not be one share of U. S. Oils, Limited, for sale by Saturday night at 25c.

The sale of this stock will enable the company to pay initial expenses and drill its first well, and POSITIVELY no more shares will be put on the market at this price.

Our properties lie west of Nakamun, south of Shillington-Ross and one mile from Athabasca Oils, whose stock has sold as high as \$6.00 per share.

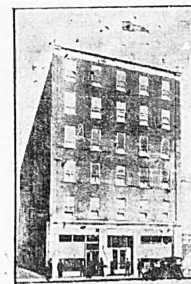

People who know say the U. S. Oils, Limited, is the best oil proposition in Northern Alberta.

The vendors of the leases cannot sell their stock until enough money has been subscribed to guarantee proper development. Compare this company's proposition with other companies. Come and get a prospectus, read same carefully and we will abide by your judgment.

(Signed) J. J. CREIGHTON, Bailiff.

EDMONTON SCHOOL MAINTENANCE FOR YEAR, \$725,000

Is Increase Over 1913 of \$210,000, Caused by Technical Education.

ROBT. MITCHELL TO BE BUILDING COMMISSIONER

Report of Medical Inspector Shows 14.45 Per Cent Children Ailing.

According to the estimates passed by the school board at a meeting last night, the cost of maintaining the public schools of the city for 1914 will be \$725,000, an increase of \$210,000 over last year. The increase is due to a great extent to the addition of manual training in the schools and the operation of technical school. The school board will ask the city for \$690,000 to make up this maintenance expense, and the balance will come from provincial grants.

The amount is made up as follows:
Salaries, teachers \$267,300.00
Salaries, teachers 29,000.00
Salaries, management 18,000.00
Salaries, playgrounds 2,000.00
School supplies 45,000.00
Debitum redemption and interest 237,288.75
General expenses, rent, insurance, etc. 64,661.25

The report of Dr. Dunn, the medical inspector of the school board, showed that out of 1,365 medical examinations made by him during the month of June, 1913 were found to be defective in some respects about half the children. This number is 14.45 per cent, and of these 59 were eye defects, and 153 were defects of the mouth and teeth. There were 516 cases of defective teeth. Whooping cough, mumps and measles completed the list.

Four additional supervisors for playground work have been appointed. They are Miss N. Stylian, Miss M. Switzer, Dora Ann and J. W. Clifton. It was decided to leave the shower baths at the King Edward school open during the summer holidays, also the drinking fountains and certain rooms in the basement and front of several of the schools, for the use of children.

A letter received from Mr. Bond explained that, as yet no retaining wall had been built along the side of the McKay avenue school, and that the earth was falling down into its property. He will take action for damages if this is not altered soon. It was referred to the building and grounds committee.

Garnau property holders and taxpayers petitioned the school board for increased school accommodation in their district, and explained that a number of small children were unable to walk as far as the Alexandra school, and that a few classes opened in their section would make it possible for them to attend. The secretary of the board was advised to instruct the people that arrangements for added accommodation along those lines were now under way and several rooms will be opened.

Settlement was authorized with Messrs. Kelly and Kook for their contract for plumbing, heating and ventilation, the amount being \$24,355.14. The contract was also authorized to E. Cuthbertson for tennis nets, and to J. A. Lockie for motors and re-winding old motors at Ritchie school.

Robert Mitchell was appointed building commissioner at a salary of \$4,800, duties to commence at once. A salary of \$1,600 will be paid H. Story as draughtsman in the building department.

PUPILS OF VERNON BARFORD SUCCEEDED IN MUSIC EXAMS.

The following pupils of Vernon Barford have passed the examinations of the Associated board of the Royal Academy and the Royal College of music:

Primary Piano—Daisy Clegg (distinction), Dorothy Garner.
Elementary Piano—Elsie Heathcote (distinction), Justina Springer, Georgina Hicks.
Lower Division Piano—Ewart Stutchbury (distinction), Ivy Crane, Edith Parish.
Intermediate Grade, Oran—Mary Olive Ormsby.

Grammar of Music, Division II.—Janet Ormsby, Justina Springer.
Grammar of Music, Division III.—Edith Parish, Audrey MacLennan, Gwen Hunt, Jean Logan, Ivy Crane.
Local Center, Rudiments—Mary Olive, Grace Richardson.

NUMBER COUNTRIES REPRESENTED REASON FOR CHANGE IN NAME

Seventeen countries were represented at the convention of the Associated Advertising Clubs of America last month in Toronto, says H. A. Roth, advertising manager of James Ramsay, limited, and vice-president of the Edmonton Industrial association, who has just returned to the city from the east. This was the first time the title name of the body was changed to the Associated Advertising Clubs of the World. Toronto, as well as all the cities where the Edmonton special train stopped off en route, made the visitors welcome. Although the metal badges made showing the Stars and Stripes on one side and the Union Jack on the other.

Emmerson Still Improving.
Dorchester, N.H., July 3.—Hon. H. B. Emerson is still improving, though slowly.

Stocktaking Sale

As Busy as Bees, All Edmonton is Sipping the Sweets of Economy Offered in this Sale

THOSE who pay the Johnstone Walker store a visit Saturday may sip to the full the sweets of economy. The whole store is practically a-bloom with values such as are only to be found at this store during Stocktaking seasons. All next week you'll hear the busy hum of enthusiastic shopping. To miss garnering your share of the shopping sweets is to lose sight of your own self-interest, for not only is this sale distinguished by very low prices, but—as is always the case at Johnstone Walker's—we'll see that satisfaction—full and ample—goes with every purchase.

A Splendid Range of Sample Towels Offering Exceptional Values

YES, exceptional values even for a sale such as this, due, of course to the fact that they are samples and were secured at a special discount. Now we pass them out to our patrons at like savings.
